

ALPOLLO AIR

MECHANICAL SERVICES

SPECIALISTS IN SERVICE, MAINTENANCE, INSTALLATION AND
CONSULTANCY OF ALL AIR CONDITIONING AND VENTILATION EQUIPMENT

Modifications

We are authorised by Mitsubishi's to carry out the horizontal to vertical modification of their units. This is a process which allows horizontal discharge units to be used in a vertical discharge situation.

*The units should not be exposed to untreated fresh air sources / high humidity for excessive duration whilst operating. This must remain within Mitsubishi Electric design limits.
Due to the modification process if the above is not followed, it is possible for excessive condensation to form within the unit which could lead to damage to electrical components. Alpollo Air take no liability for any units which are damaged due to poor installation design which results in condensation damage.*

Cost

Cost per unit: £325.00 plus vat

Delivery

Delivery will be quoted upon return of our form below

If your order is direct from Mitsubishi then they will organise delivery to our warehouse.

If you would like to drop the unit off or collect it yourself, our warehouse address is-

ALPOLLO AIR
THE PACKING SHED
PARIS FARM
